PRODUCT & TECHNICAL DOMAINS

AI / NPU

Wi-Fi / Connectivity

Android TV / FAE

ATE / Robot / ESD

Industrial Vision / AOI

Camera / Imaging

ENGINEERING CAPABILITIES

Automation

Validation

Debug & RCA

System Integration

Customer Engineering

Test Architecture

SELECTED ENGINEERING CASE STUDIES

01 AI / NPU Validation Pipeline

Controlled execution, golden comparison, automated verdicts, and regression evidence.

02 ATE / Robot / ESD System Integration

Employer-neutral equipment sequencing with explicit safety, timeout, evidence, and result boundaries.

03 FAE / Customer Issue Reproduction & RCA

Repeatable reproduction, preserved evidence, isolation, fix verification, regression, and closure.

ENGINEERING APPROACH

Requirement → Reproduce → Evidence → Isolation → RCA → Fix Verification → Regression → Closure
